

4 ways trade credit insurance helps in times of uncertainty

Credit insurance provides protection:

- You get paid when your customers don't pay you.
- We monitor your clients' financial strength so you can focus on your company. Information on your customers old and new is more critical than ever in times of uncertainty.
- You'll gain peace of mind knowing that your cash flow is stabilised.
- You can avoid catastrophic loss of revenue: when a few customers represent a large proportion of your revenue, if one goes bust you might go under.

Credit insurance supports your growth:

- You may address new markets safely thanks to valuable information on countries, sectors and companies.
- You may diversify to new products, knowing who to trade with and who not to trade with.
- You can support customers seeking longer payment terms.
